PROFESSIONAL SUMMARY

Results-driven Business Analyst with 1 year of hands-on internship experience delivering analytical solutions across banking, healthcare, and retail domains. Proficient in requirements elicitation, stakeholder management, and translating complex business processes into Functional (FRD) and Business Requirement Documents (BRD). Skilled in mapping workflows (AS-IS / TO-BE), facilitating UAT cycles, and designing interactive dashboards using SQL, Power BI, Tableau, and Advanced Excel. Proven track record of reducing manual reporting efforts by 40% and optimizing corporate reporting accuracy by 25%.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Business Analysis:** Requirements Gathering, Stakeholder Management, BRD/FRD Documentation, User Stories, Gap Analysis, Root Cause Analysis (RCA), Process Flow (AS-IS / TO-BE), UAT Support.
- **Methodologies & Tools:** Agile / Scrum, SDLC, Sprint Planning, KPI Development.
- **BI & Visualization:** Power BI (DAX, Modelling), Tableau, Advanced Excel (Pivot Tables, XLOOKUP, Data Validation).
- **Databases & Languages:** SQL (MySQL) — Joins, Subqueries, CTEs, Window Functions; Python (Pandas, NumPy for EDA)

PROFESSIONAL EXPERIENCE

Business Analyst Intern | Ai Variant **June 2025 - June 2026 | Bengaluru, Karnataka**

- Facilitated requirements gathering workshops with cross-functional stakeholders across 5 business domains, capturing end-user needs and translating them into actionable BRDs, FRDs, and user stories.
- Authored comprehensive Business Requirement Documents (BRDs) and Functional Requirement Documents (FRDs), ensuring structural alignment between business goals and engineering sprint deliverables.
- Created process flow diagrams (AS-IS / TO-BE), user stories, and acceptance criteria within Agile sprints to guide development teams during corporate dashboard implementation.
- Spearheaded User Acceptance Testing (UAT) cycles, defining test scenarios, tracking defect resolution, and verifying fixes to ensure data accuracy met compliance metrics.
- Developed and deployed 12+ interactive Power BI and Tableau dashboards, automating legacy reporting workflows and reducing manual tracking effort by 40%.
- Wrote optimized MySQL queries (joins, subqueries, CTEs, window functions) to analyze over 50,000 transaction records, improving data validation and corporate reporting accuracy by 25%.
- Conducted data-driven gap analysis and operational trend tracking to identify operational bottlenecks, presenting key strategic recommendations directly to project leadership.

SELECTED PROJECTS

Financial Risk & Bank Loan Portfolio Analysis | Power BI, Tableau, MySQL, Excel GitHub: Bank-Loan-Analysis

- Elicited financial performance requirements and built an executive portfolio risk monitoring dashboard tracking $15M+ in historical loan distributions across 10,000+ credit records.
- Segmented borrower profiles by credit rating tiers and loan purpose to deliver data-driven risk insights for credit decisioning teams, accelerating approval workflows.

Healthcare Operational Analysis & BI Reporting | Power BI, Tableau, MySQL, Excel GitHub: Axon-Healthcare

- Gathered operational requirements to define 10+ core healthcare KPIs across 10,000+ patient records and 1,000 providers, focusing on patient retention, follow-up rates, and treatment costs.
- Architected end-to-end Tableau dashboards analyzing provider utilization and demographic trends to optimize clinical resource planning and operational workflows.

Retail & Food-Tech Market Intelligence Analysis | Power BI, SQL, Excel GitHub: Zomato-Analysis

- Modeled dining and delivery metrics across metropolitan zones to evaluate order density, pricing patterns, cuisine preferences, and customer rating distributions.
- Engineered interactive Power BI dashboards delivering actionable customer segmentation and competitive pricing insights to optimize restaurant partner engagement.

EDUCATION

Bachelor of Commerce (B.Com) **India**

Higher Secondary / Intermediate (Commerce) **Nepal**

CERTIFICATIONS

- Certified Business Analyst — ExcelR (2025)
- MySQL Developer Profile (3-Star) — HackerRank
